Passenger & Light Truck Rhino Tire Limited Warranty

Introduction.

Any tire, no matter how well constructed, may fail in use and create a risk of property damage, serious personal injury or death! These tire failures result from different use or misuse conditions.

Following the safety instructions from tire manufacturers like maintaining proper tire inflation, safe loading and periodic inspections will diminish the risks of tire failures. New purchased tires come with a limited tire warranty which is waived depending on level of tire wearing, after certain period from date of purchase, if you are not original buyer with proof of purchase, if used as commercial service, in case of weather / ozone cracking, if not strictly observing maintenance precautions, etc. No Manufacturing guarantee will cover Road hazards like puncture, cut, stone drill, etc.

What Is the RhinoTire Solution?

RhinoTire is an Advanced, Full scale, Lifetime Tire Protection Solution from Road Hazards without limitations associated to punctures, cuts from glass or other materials and stone drills for up to 1/4 of an inch in diameter. It is an addition to the limited warranty given by the original tire manufacturer and makes the huge difference between becoming stranded with a flat tire or driving away with peace of mind!

Rhino Tire is a breakthrough anti-flat tire sealing and restorative technology solution, consisting of a prior to use treatment of the tread area of the tires. The technology consist of application of a unique patented polymer material on the interior area of the tire (directly bellow the tread area) that will instantly seal any punctures or cuts up to ¼ of an inch in diameter. The material is a soft solid that works between minus 25 and 70 degrees Celsius. It is water-proof, non-poisonous, non-erosive, and will outlast your tires and even your automobile! The molecular consistence is proven and tested to be physically and chemically stable under all conditions. The material has shown to outlast the tire itself. The solution includes balancing of the tire after tire treatment.

What RhinoTire Pledges and Warrants to Cover and For How Long?

- **Warrants 100% protection from Road Hazards resulting from tread area tire (i)punctures, (ii)cuts and/or (iii)stone drills for up to ¼ of an inch in diameter.**
- **Warrants Compatibility with use of Tire Pressure Valve Monitor Sensors.**
- **Warrants radial passenger and light truck size tires.**
- **Rhino Tire Solution does not depend on speed conditions during the road hazard occurrence.**
- **Rhino Tire Solution does not depend on purpose of car use – commercial or not.**
- **Rhino Tire Solution does not depend on level of wearing of the tire.**
- **Rhino Tire Solution Warrants coverage during the Full Life Time of the Tire (as defined by the original tire manufacturer).**
- **Rhino Tire Solution does not depend on how deep is the puncture penetration in the tire.**

What RhinoTire Does Not Cover?

- Road hazards due to impact break, bruise, bulge, snag, wheel spinning, car accident, etc.
- Use (run) of tire while flat or under acute under-inflation.
- Any type of sidewall tire implicated hazards.

Solution Replacement and Price.

Radial passenger and light truck tire under this **Rhino Tire** warranty will be re-applied with the **Rhino Tire Solution FREE OF CHARGE for the lifetime of the manufacturer warranty of the tire.**

Conditions and Exclusions.

Any tire, no matter how well protected, may fail in service or otherwise become unserviceable due to extreme condition circumstances. Nothing in this Warranty is intended to be a representation by **RhinoTire** that a 100% tire failure cannot occur.

RhinoTire DISCLAIMS ANY LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES TO THE EXTENT PERMITTED BY LAW.
